CHILDHOOD HUNGER STARVES THE AMERICAN DREAM

THE FACTS TELL A SOBERING TALE

In Ohio, childhood hunger is a very real problem. More than 25% of Ohio families reported there was a time when they were unable to buy enough food within the last year. As a result, nearly 750,000 children may not know how — or where — they will get their next meal.

The consequences of childhood hunger are profound. Research shows that children who regularly miss meals have a higher risk of health and behavioral problems, such as obesity-related complications and difficulty with social interactions and learning. These problems can have a lifelong impact. Hungry students earn lower marks in reading and math and more often repeat a grade, which gives them a higher risk of dropping out of school.

Over a lifetime, a non-high school graduate makes \$200,000 less than a high school graduate and a million less than a college graduate. Childhood hunger ultimately affects a person's ability to feed his or her own family.

THERE IS A SOLUTION

Children's Hunger Alliance is the statewide non-profit organization that works to ensure all children are fed regular and nutritious meals and develop lifelong healthy eating habits.

WE NEED YOU TO MAKE IT WORK

Hungry children cannot learn, and undereducated adults cannot earn. Children's Hunger Alliance touches families in all 88 Ohio counties. While we are having an impact, there is still much to be done to ensure every hungry mind and body is properly fed. We cannot do it without your help.
